

2 February 1968

25X1A9a

MEMORANDUM FOR: [REDACTED]

SUBJECT : GSA BULLETINS A-19 and 3-A 14
"Operation Cleanup"

1. As a follow-up on your 9 January 1968 discussion with [REDACTED] concerning the GSA requirement for a Supplies and Equipment Cleanup Campaign, I have the following to report:

a. Discussed subject Bulletins with [REDACTED] as per your request; he was not aware of any thing about them, but felt that a [REDACTED], also of LSD/OL would surely [REDACTED] out them.

b. [REDACTED] called me this a. m. (Friday, 2 February) and said that in the middle of January he received from the Director of Logistics these Bulletins and the approval to proceed with the Campaign. [REDACTED] said they are finishing the draft of the Headquarters Notice on this right now. He also said they would, in all likelihood, be in touch with this Staff after the Campaign got under way, regarding some of the filing equipment and so forth which we would be interested in.

c. In any event, the wheels were spinning in Office of Logistics for this up and coming Campaign.....
